WORKSHOP IN ENGRAVING METAL-COLOURED GLASS

September 7th to 8th 2019

at **Lichtblickatelier**

Engraving technique for metal-coloured glass,
developed by Rudolf Steiner and Assja Tourgenieff
for the coloured windows of the
Goetheanum

With Lucien Turci (co-founder of Lichtblick e.V.)
and Clothilde Bernard (glass engraver)

Program:

- Introduction to the metals, their transformation in the process of making glass and the quality of colours.
- Introduction to this special technique of engraving, which enables the sunlight to shine through the glass in a unique way.
- Engraving of a metal coloured glass, to keep and take away.
